

RING SIZING GUIDE

This guide can be used to find your correct Ring Size
You will need a Ruler and Scissors

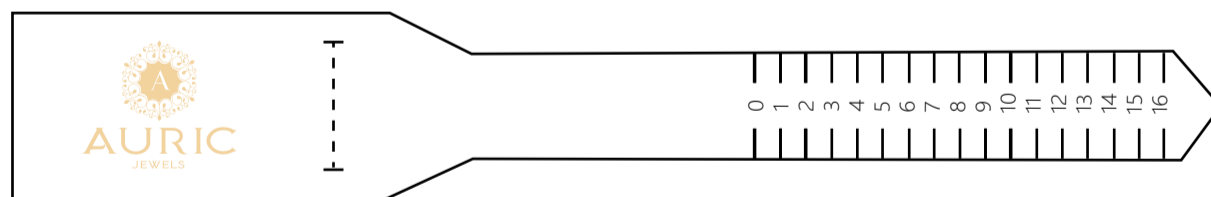

1. Print this Sheet 100% scale.

2. To ensure the page is printed correctly, place your ruler and measure against the page ruler. They must match

(if this does not match a real ruler, your ring will not fit properly)

3. Carefully cut out the ring sizer and make a slit on the dotted lines.

4. Slip the pointed end through the slit and place around your finger. Put it through until the fit is nice and snug.

5. Your Size is the closest number to the slit.
